Square 9® Softworks Introduces Electronic Business Machines as a Regional Reseller

Square 9 Softworks and Electronic Business Machines team up to bring the SmartSearch Document Management Suite of solutions to local businesses while providing increased regional support.

Everett, WA, April 20th, 2015 — Square 9 Softworks, award winning developer of highly intuitive electronic content management solutions, announced today that its flagship SmartSearch Document Management Suite is now available through **Electronic Business Machines** for local businesses in Western Washington.

EBM is at the forefront of technology providing digital solutions in Western Washington for over 30 years. Square 9 dovetails with EBM's company mission of making technology easy. It is incredibly easy to install, administer and most importantly, to use. Many other systems use difficult interfaces. **Square 9 Smart Search** uses a folder structure that people are familiar and comfortable with and it provides automated workflow and key free indexing. No more manual entry. Fully developed solution for Accounts Payable with e-Forms, electronic routing and 3 way matching. See for yourself why over 13,000 organizations have made the jump.

SmartSearch offers an array of convenient, time-saving features to simplify and streamline capture automation processes through automated page separation, bar code recognition and zonal OCR (optical character recognition). End users can fully index documents and file them securely within the SmartSearch database for quick and easy retrieval when needed. In conjunction with Square 9's Work XChange document workflow module, users can simultaneously initiate and manage the course of captured business information.

With powerful document management capabilities placed at the users' fingertips, the stress-free integration capabilities of SmartSearch allows organizations regardless of type and size to eliminate inefficient paper-based filing systems. SmartSearch provides the ability to streamline repetitive business processes including document routing, notification and approval, to enhance security and compliance while minimizing the time and expenses associated with handling paper documents.

SmartSearch Content Management is a feature-rich solutions suite used by organizations internationally to drive efficiency and productivity across all business processes. Built on the .NET platform through an open architecture design, SmartSearch is a scalable, value-driven solution that is easy to use, learn and support. From small businesses to the Fortune 500, organizations that rely on document-intensive processes rely on SmartSearch to streamline productivity by eliminating inefficient paper-based systems.
